MEDICAL TOURISM · BANGLADESH ⇄ THAILAND

Thai Medical Desk

Prototype walkthrough, user flow and the modules to build next

7 modules today | **8-stage journey** | **12 modules proposed**

October 2026

OVERVIEW

One shared desk for every patient

Thai Medics

WHAT IT IS

A case-management and billing desk for bringing patients from Bangladesh to hospitals in Thailand.

WHO USES IT

Bangladesh office
Intake, reports, family contact

Thailand office
Hospitals, travel, on the ground

Accounts
Quotes, invoices, payments

Management
Oversight, staff, audit

8
Case stages

7
Main screens

7
Tabs in every case

5
Role templates

13
Individual permissions

6
Charge types

3
Currencies: BDT · THB · USD

2
Languages: Bangla · English

01

What's built today

The seven modules of the working prototype and what each one does

Thai Medics

MODULES TODAY

Seven screens around one patient case file

Thai Medics

Dashboard

Active cases, today's and overdue follow-ups, next 30 days of appointments, cases by stage

Patient cases

Search by name, case ID, phone or hospital; filter by stage, coordinator and office

Follow-up calendar

Month and list views of tasks, appointments, arrivals and departures

Accounts & billing

Patient accounts, quotations, invoices, receipts, supplier balances and profit

Staff

Add, approve and deactivate staff; set permissions in a matrix

Audit history

Every action logged with who did it, what changed and when

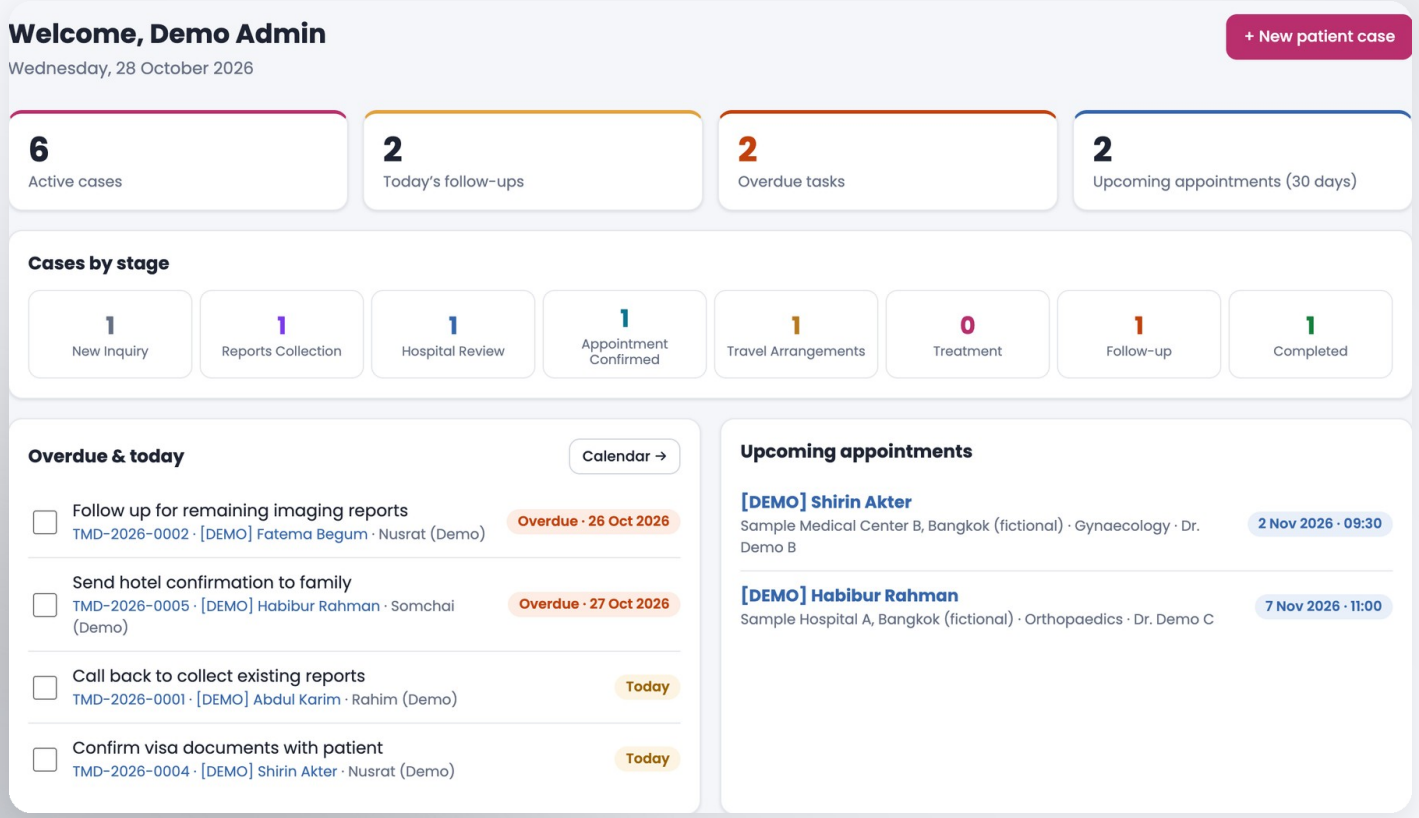

System status

A summary of what the prototype covers, plus a demo-data reset

Inside every case

+ Overview
+ Medical records
+ Communication
+ Hospital & appointment
+ Thailand assistance
+ Follow-up tasks
+ Accounts & billing

What's due today, and any case in seconds

Dashboard opens on today's priorities

Dashboard

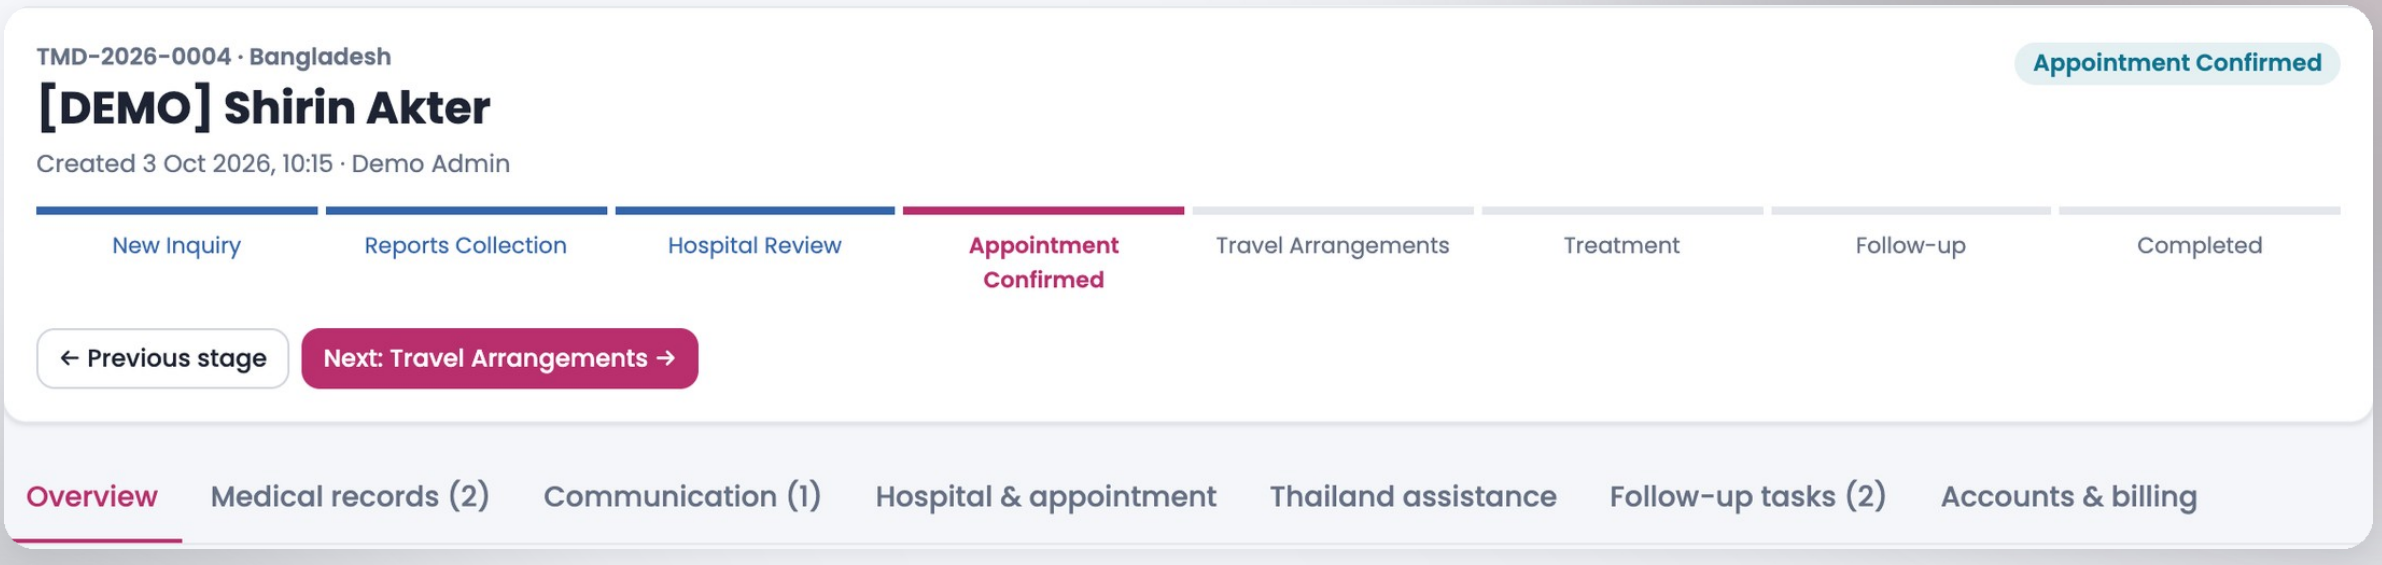

- Live counters: active cases, today's follow-ups, overdue tasks, appointments
- Stage strip jumps to a filtered case list
- Tick off tasks; accounts summary per currency

Patient cases

- Search by name, case ID, phone or hospital
- Filter by stage, coordinator and office
- New cases get an automatic ID, e.g. TMD-2026-0008

One case: a stage tracker and seven tabs

Thai Medics

Overview

Patient, companion and the BD and TH coordinators

Medical records

Reports by date with uploader recorded

Communication

Call, WhatsApp and email notes; next action becomes a task

Hospital & appointment

Doctor, dates, proposal and days awaiting reply

Thailand assistance

Flights, stay, transfers, interpreter, handover notes

Follow-up tasks

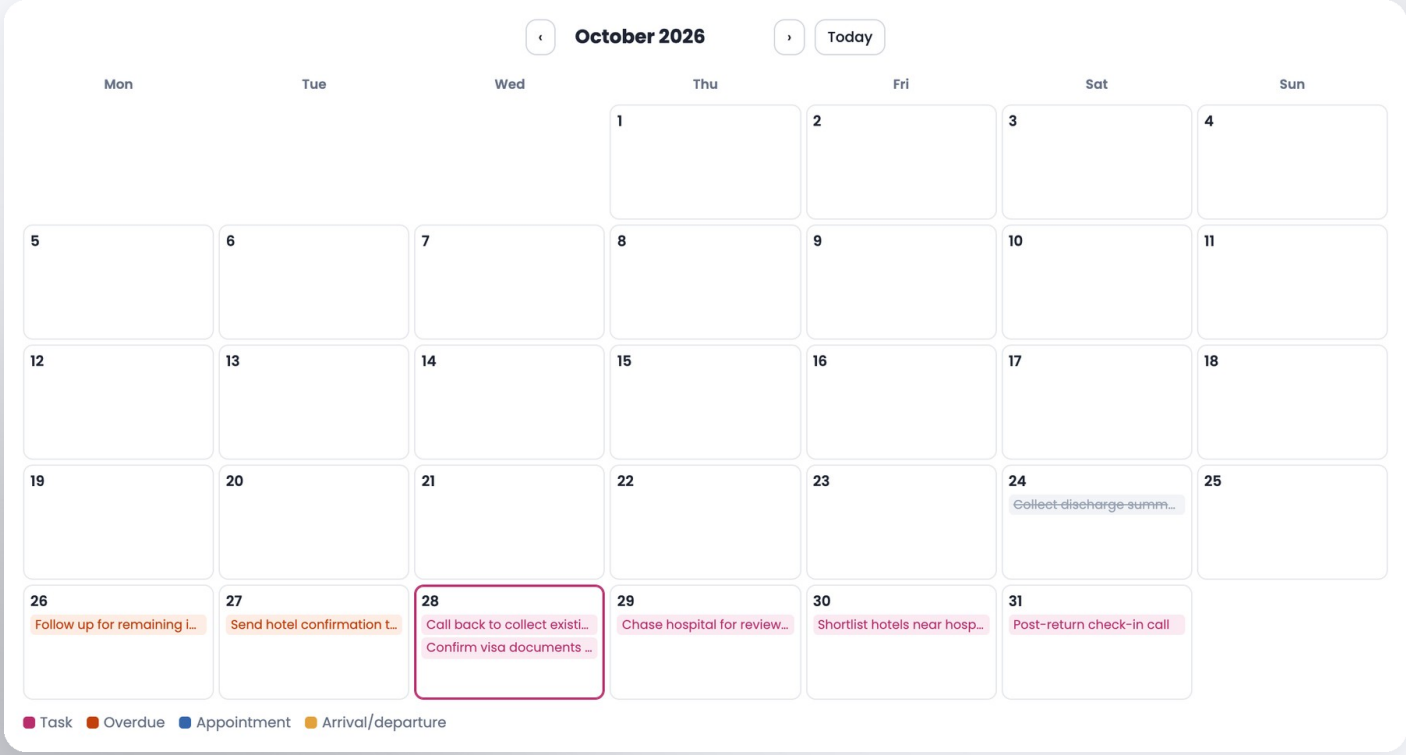

Owner and due date; overdue highlighted

Accounts & billing

The patient's bill, payments and documents

MODULE · FOLLOW-UP CALENDAR

Tasks, appointments and travel in one view

Task · Overdue · Appointment · Arrival / departure

Month view

Colour-coded tasks, appointments, arrivals and departures

Task list

Overdue, today, next 14 days and recently completed

Automatic tasks

A note with a next-action date becomes a task

Mine only

Each coordinator can filter to their own work

Full patient billing, tied to the case ID

Thai Medics

Six charge types

BDT · THB · USD with recorded rate

Visa fees
travellers × fee + service

Air ticket
charge + service fee

Hotel
rooms × nights × rate

Land package
quantity × unit rate

Service charges
agreed amount

Discounts
subtracted from bill

Example · case TMD-2026-0004 (USD)

1,506.60	549.00	957.60	585.20
Total bill	Paid	Balance due	Est. profit

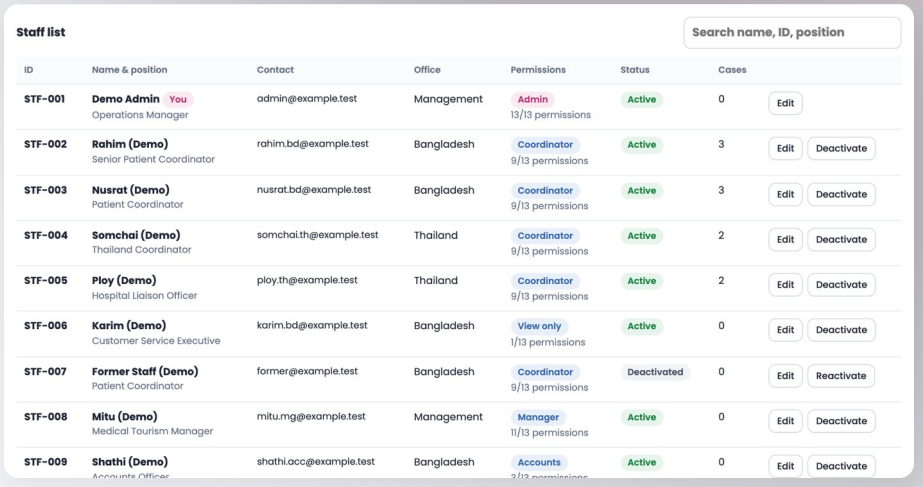

From quote to receipt

1. **Draft charges**
   Editable until the invoice is issued
2. **Quotation**
   An estimate the patient can see any time
3. **Issue invoice**
   Charges numbered INV-year-no. and locked
4. **Payments & refunds**
   Cash, bank, bKash/Nagad, card or cheque, with receipts
5. **Reverse to correct**
   An equal and opposite entry with a reason
6. **Print or PDF**
   Quotation, invoice, receipt and statement

Five role templates built from 13 permissions

Permission area	Admin	Manager	Accounts	Coord.	View
Create & edit cases	●	●	–	●	–
Change case stage	●	●	–	●	–
View & download records	●	●	●	●	●
Upload records, notes, tasks	●	●	–	●	–
Hospital & Thailand details	●	●	–	●	–
View accounts	●	●	●	–	–
Post charges & invoices	●	–	●	–	–
Manage staff & permissions	●	–	–	–	–
View audit history	●	●	–	–	–

Change any single tick and the role becomes “Custom”. Staff belong to one office.

Three offices

Bangladesh, Thailand and Management

Audit history

Who did what, to which record, and when

Bangla & English

Switch language any time, desktop or mobile

02

How work flows

The patient journey through eight stages, and a coordinator's working day

Thai Medics

Eight stages, from inquiry to completed case

Thai Medics

01	02	03	04	05	06	07	08
New Inquiry	**Reports Collection**	**Hospital Review**	**Appointment Confirmed**	**Travel Arrangements**	**Treatment**	**Follow-up**	**Completed**
Patient or family contacts the Bangladesh office	Existing medical reports collected and uploaded	Reports sent to a Thai hospital; reply tracked	Doctor, date and proposal agreed; billing opens	Visa, flights, hotel, transfers and interpreter	Patient treated; Thailand office on the ground	Check-ins and reports after treatment	Case closed and account settled

Who works on the case

Bangladesh team — owns the case and the patient relationship

Thailand office — hospitals, travel and on-ground support

Accounts — quotation, invoice and payments

A coordinator's day runs in a simple loop

Thai Medics

STEP 1

Sign in

Dashboard opens on overdue and today's tasks

STEP 2

Open a case

From a task, a stage counter or search

STEP 3

Update a tab

Upload a report, log a call, edit hospital or travel

STEP 4

Set next action

A due date turns into a task on the calendar

STEP 5

Move the stage

Advance once the stage's work is done

Handover between offices

Bangladesh and Thailand coordinators share handover notes on each case; notes from the other office are flagged.

A permanent contact log

Every call and message stays on record with its outcome and next action; notes cannot be edited or deleted.

Four teams, one case, clear hand-offs

Thai Medics

Bangladesh coordinator

Stages 1–8

- Opens the case and records the stated need
- Collects and uploads reports
- Logs every call and WhatsApp
- Keeps the family updated

MAIN SCREENS

Overview · Records · Communication

Thailand coordinator

Stages 3–7

- Sends reports to hospitals and chases replies
- Confirms doctor and appointment
- Books stay, transfers and interpreter
- Writes handover notes

MAIN SCREENS

Hospital · Thailand assistance · Tasks

Accounts officer

Stages 4–8

- Adds visa, ticket, hotel and package charges
- Issues quotation and invoice
- Records payments and refunds
- Tracks supplier costs

MAIN SCREENS

Accounts & billing · Statements

Manager & admin

All stages

- Watches the dashboard and stage counts
- Reviews accounts and profit
- Manages staff and permissions
- Checks the audit history

MAIN SCREENS

Dashboard · Staff · Audit history

03

What to build next

Recommended modules to turn the desk into a complete medical-visa operation

Thai Medics

WHY ADD MORE

Where work still happens outside the system

Thai Medics

Hospitals typed by hand in each case

No price lists, comparison or partner contacts

Doctors aren't tracked

Hard to match a patient to the right specialist

No visa tracking

Missing documents surface late and delay travel

No agent records

Can't see who referred a patient or pay commission fairly

Inquiries arrive scattered

Facebook, website and phone leads slip away

Patients can't see their status

Repeated calls and WhatsApp messages to staff

No templates or reminders

Replies are slow and inconsistent

No business reports

No view of conversion or profit by hospital or agent

RECOMMENDED MODULES

Twelve new modules across four pillars

Thai Medics

Partner network

The people we work with

Hospital directory

Partner hospitals, departments, packages, contacts

Doctor management

Specialists, schedules, languages, outcomes

Agent network

Referrals, commissions, agent self-view

Patient journey

From first inquiry to visa

Lead & inquiry hub

Every inquiry captured, sourced and followed

Medical visa desk

Checklists, embassy status, reminders

Patient & family portal

Status, uploads and invoices on the phone

Service delivery

Packages, suppliers, ground

Packages & quote compare

Send once, compare hospital quotes

Supplier & vendor hub

Hotels, airlines, transport, interpreters

Thailand ground services

Pickups, interpreters, daily schedule

Care & growth

Retain, learn, grow

Aftercare & feedback

Post-return check-ins, reviews, ratings

Messaging & reminders

Bangla/English WhatsApp and email templates

Reports & analytics

Conversion, revenue and profit by source

Hospital directory and doctor management

Thai Medics

Hospital directory

- Partner hospitals with departments, accreditation and location
- Package price lists with validity dates
- International-desk contacts and reply-time history
- Pick a hospital from the list instead of typing it

Doctor management

- Profiles: specialty, hospital, languages, clinic days
- Match a case's stated need to the right specialist
- See which doctor treated which patient, and outcomes
- Request second opinions from several doctors

SEND ONCE, COMPARE REPLIES

One click shares a case with several hospitals; replies line up side by side

Hospital	Package estimate	Reply in	Doctor
Hospital A	THB 180,000	2 days	Orthopaedics
Hospital B	**THB 165,000**	**1 day**	**Orthopaedics**
Hospital C	THB 210,000	4 days	Sports med.

Illustrative example

Outcome: the chosen reply becomes the patient's proposal and quotation, with no retyping.

SPOTLIGHT · PARTNER NETWORK

Agent network with automatic commission

Thai Medics

Agent refers a patient
From a district agent or partner clinic

→

Case tagged to agent
Source saved on the case from day one

→

Case reaches billing
Commission is triggered by the stage reached

→

Commission calculated
% or fixed, by agent, hospital or package

→

Payout & statement
Monthly statement, paid and pending

What the office gets

- Agent profiles with district, contact and agreed terms
- Referral source on every case, alongside Facebook, website or walk-in
- Commission rules per agent, hospital or package
- Ranking of agents by referrals, conversions and revenue

What the agent sees

- Only their own referrals and each one's current stage
- Commission earned, pending and paid
- Send a new patient lead from the phone
- Download a monthly statement

PILLAR · PATIENT JOURNEY

Every lead captured, every visa cleared

Thai Medics

Lead & inquiry hub

No inquiry goes unanswered

- Website, Facebook and phone inquiries open a case automatically
- Source recorded: agent, Facebook, website, walk-in
- Duplicate warning by phone or passport
- “Lost lead” status with a reason
- Response time tracked per coordinator

Solves: leads lost between channels

Medical visa desk

Clear the visa before the flight

- Document checklist for patient and each attendant
- Hospital appointment and invitation letters tracked
- Embassy submission and visa status
- Alerts on passport expiry and appointment date
- Attendant visas handled with the patient's

Solves: late surprises before travel

Patient & family portal

Status without a phone call

- Simple phone access for patient and family
- Current stage, appointment and visa status
- Upload reports and passport copies
- Invoices, receipts and online payment (bKash, Nagad, card)
- Works in Bangla and English

Solves: repeated status calls

Packages, suppliers and ground care together

Packages & quote comparison

Faster, comparable proposals

- Treatment package catalogue: check-ups, orthopaedics, cardiac, IVF
- Compare quotes side by side
- Send reports to several hospitals at once
- Turn the chosen quote into the patient quotation

Supplier & vendor hub

Every partner rate on file

- Hotels, serviced apartments, airlines, transport, interpreters
- Supplier bookings linked to cases
- Negotiated rates and contract validity
- Supplier payments and balances together

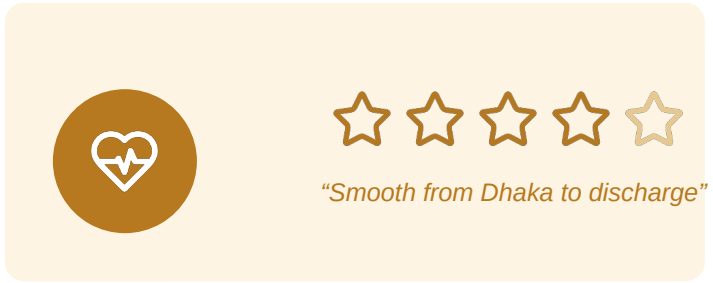

Thailand ground services

A smooth stay in Bangkok

- Airport pickup and hospital transfer roster
- Day-by-day schedule for each patient
- Bengali–Thai interpreter scheduling
- Emergency contact and on-call staff

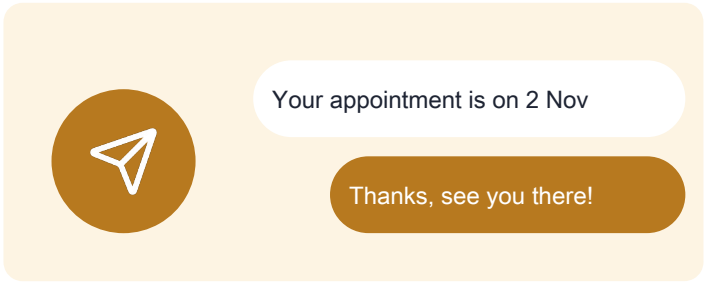

PILLAR · CARE & GROWTH

Stay close after treatment, see what works

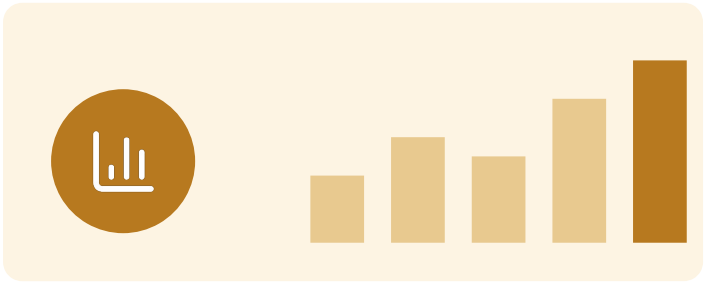

Aftercare & feedback

- Check-ins at 1 week, 1 month and 3 months after return
- Follow-up video consults with the Thai doctor
- Medication and next-visit reminders
- Ratings and reviews per hospital and staff member

Messaging & reminders

- Ready templates in Bangla and English
- WhatsApp and email sent from the case and saved to it
- Automatic reminders: documents, payment, flight, appointment
- Broadcasts for health camps and offers

Reports & analytics

- Monthly inquiries, conversion and lost-lead reasons
- Revenue and profit by hospital, agent and package
- Coordinator workload and response time
- Export any list or report to Excel

The journey after the upgrade

Thai Medics

NEW STAGE

01	02	03	04	05	06	07	08	09
New Inquiry	Reports	Hospital Review	Appointment	Visa	Travel	Treatment	Follow-up	Completed
Lead hub	Patient portal	Hospitals	Packages	Visa desk	Supplier hub	Ground services	Aftercare	Analytics
Agent network		Doctors	Messaging					Commission
		Quote compare						

Lost lead, from any stage

Close a case as lost with a reason: price, another provider, medical advice, visa refused. Reasons feed the reports.

Source tagged at intake

Every case records where it came from: agent, Facebook, website, walk-in or referral, so commission and marketing ROI are automatic.

IMPROVE WHAT EXISTS

Quick wins inside today's modules

01

Visa stage

A dedicated stage between appointment and travel

02

Lost-lead status

Close a case as lost, with a reason to learn from

03

Patient source

Agent, Facebook, website or walk-in on every case

04

Duplicate warning

Flag returning patients by phone or passport

05

Pay-online link

bKash, Nagad or card link on every invoice

06

Export to Excel

Any list or report, in one click

TARGET PICTURE

Everything connects around one shared case

Thai Medics

OUTSIDE PARTIES

- Patients & families
- Agents
- Hospitals & doctors
- Embassy
- Suppliers

Thai Medical Desk

one case file · one calendar · one account

Partner network

Hospital directory
Doctor management
Agent network

Patient journey

Lead & inquiry hub
Medical visa desk
Patient & family portal

Service delivery

Packages & quote compare
Supplier & vendor hub
Thailand ground services

Care & growth

Aftercare & feedback
Messaging & reminders
Reports & analytics

Today: Dashboard · Cases · Calendar · Billing · Staff · Audit

INTERNAL TEAMS

- Bangladesh office
- Thailand office
- Accounts
- Management

SUGGESTED ORDER

Build in three waves, partners first

Thai Medics

1 — 2 — 3

WAVE 1

Partners & visas

- Hospital directory
- Doctor management
- Agent network
- Medical visa desk
- Quick wins on today's screens

Biggest daily pain; every later module builds on this partner data

WAVE 2

Faster service

- Lead & inquiry hub
- Messaging & reminders
- Packages & quote comparison
- Supplier & vendor hub

Faster replies and quotes, with nothing lost between channels

WAVE 3

Experience & insight

- Patient & family portal
- Thailand ground services
- Aftercare & feedback
- Reports & analytics

Uses the data gathered in waves 1–2 to serve patients and guide decisions

Thai Medics

NEXT STEPS

Let's finalise the module list

01

Walk the prototype with both offices

Confirm the 8 stages, fields and roles match daily work in Dhaka and Bangkok

02

Agree the 12 modules and their order

Mark each one must-have, next or later

03

Design the Wave 1 screens

Hospitals, doctors, agents and the visa desk, built on today's look and flow

Thank you
